EDUCATION

Bachelor of Technology (B.Tech.) – Computer Science & Engineering (Data Science)

2024 – 2028

St. Vincent Pallotti College of Engineering & Technology, Nagpur

Current CGPA: 8.88 / 10.00

Semester SGPA: Sem I: 7.77 | Sem II: 8.86 | Sem III: 8.91 | Sem IV: 9.95

TECHNICAL SKILLS

Programming Languages: Python, SQL, JavaScript

Web Development: HTML, CSS, JavaScript, React.js, Context API, Redux, Node.js, Express.js, Flask, Django, MongoDB, PostgreSQL

Frontend Technologies: Flexbox, CSS Grid, Bootstrap, React.js, Angular

Tools & Platforms: Git, GitHub, Docker, Vercel, Heroku, Streamlit

Data Analytics & Business Intelligence: Excel, Power Query, Pivot Tables, VBA, Tableau, Power BI

Data Science & Machine Learning: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

Machine Learning Algorithms: Linear Regression, Logistic Regression, K-Nearest Neighbors (KNN), Support Vector Machines (SVM), Naive Bayes, Decision Trees, Random Forest, K-Means Clustering, Hierarchical Clustering, Principal Component Analysis (PCA), Recommendation Systems, XGBoost, Reinforcement Learning

PROJECTS

CIROP – Customer Intelligence & Revenue Optimization Platform

(React.js | Node.js | PostgreSQL | Python | Power BI | XGBoost)

- Developed an end-to-end analytics platform for customer intelligence and revenue optimization.
- Implemented customer segmentation, churn prediction, customer lifetime value analysis, and revenue forecasting.
- Built interactive dashboards and KPI monitoring systems for business decision-making.

Dealer Performance Intelligence System

(Python | Streamlit | XGBoost | SHAP | GPT-4o)

- Developed an AI-powered dealer performance monitoring platform.
- Applied explainable AI techniques using SHAP for prediction interpretation.
- Built interactive dashboards with conversational analytics capabilities.

Credit Risk Scoring System

(Excel | VBA | Power Query | Python | Logistic Regression)

- Designed a credit risk assessment and scoring engine for loan evaluation.
- Automated risk calculations and reporting using VBA and Power Query.
- Applied Logistic Regression models for credit risk prediction.

Enterprise Retail Intelligence Suite

(Power BI | DAX | Power Query | Data Modeling)

- Created executive-level business intelligence dashboards for retail analytics.
- Performed sales, profitability, customer, and operational performance analysis.
- Developed advanced DAX measures and optimized data models.

CERTIFICATIONS

- Microsoft – Get Data in Power BI (2026)
- Microsoft – Get Started Building with Power BI (2026)
- Google – Google Data Analytics Capstone (2026)
- CodeTantra – Analysis of Algorithms (2026)

ACHIEVEMENTS

- **Copyright Registration:** E-Commerce Website for Scientific Lab Instruments
- **Hackathon:** Participant – India–Israel Innovation Hackathon (2026)
- **Academic Excellence:** Achieved an exceptional SGPA of 9.95 in Semester IV
- **Academic Growth:** Consistently improved overall CGPA from 8.52 to 8.88 through strong academic performance
